

Question for the groupwork:

Do you have any explanations to your countries results? Especially, when there is an obvious difference in your results in regard to the other countries' results.

Results of the discussion – best practice (questions 2, 3, 6, 11)

Italy

- 1) most of the training is payed by money from funds (Interprofessional Funds), so money is not such a big problem but the lack of information about these funds is a problem

Wales

- 1) main barrier time: flexibility in access to IT. Opening time: 9 till 9.
- 2) Access for all: plastic student cards for 90 year old learners.

Estonia

- 1) older participants: economy increased and older people were needed on the labour market, but now the same problem because of the global economy crises.

Germany

- 1) Italy: teach cultural aspects with social skills. Communication methods need a subject as e.g. culture.
- 2) Wales: Screenings by multiple choice tests. (test provided by the government)
- 3) Self directed learning/ mass customization

Need for all countries: Promote and motivate people to think more entrepreneurial.
Entrepreneurship should be implemented in further education.
